**DIRECTORY OF
MENTAL HEALTH SERVICES
IN SUFFOLK COUNTY**

2017 EDITION

Overview of Our 2017 Directory

On behalf of the Board of Directors of the Association of Mental Health and Wellness (MHAW), we are pleased to share with you the 2017 Edition of the Directory of Mental Health Services for Suffolk County.

As a chapter of Mental Health America and the Mental Health Association of New York State (MHANYS), MHAW's mission is "to empower people and communities to pursue and sustain enriched, healthy, and self-directed lives." MHAW is committed to helping reduce the impact of mental health challenges that affect one in three of us in our lifetime by ensuring early and effective access to quality clinical treatment, housing, rehabilitative, emergency, and peer support services.

Community mental health providers had experienced rapid changes that converged in 2016: All licensed treatment programs are driven and paid for by insurance reimbursement through commercial insurance, Medicaid, and Medicare by way of Managed care strategies. As such, when you call any provider, it is important to know your health insurance plan and, if possible, the Managed Care Organization that will be involved in authorizing your care. All NYSOMH-licensed outpatient clinics now offer "Open Access Hours" where you can simply walk-in to commence the process of getting needed care. However, you should call the provider to find out the schedule of those hours.

Included in the 2017 Edition --- and our on-line database of services -- are new or expanded services made possible through the NYSOMH Regional Center of Excellent process. These include new and expanded services such as Peer Support Services, crisis diversion services, and housing support programs.

Thanks to multiple new Medicaid State Plan changes put forth by the NY State Department of Health, there is a dramatically expanded care management service available for adults and children with Medicaid who have mental health, substance use, and/or physical health disorders. You will note in this Directory an expanded Single Point of Access (SPOA) process for accessing these services.

Obviously, the information in this Directory is subject to rapid change. The resources are kept up to date and in a compendium with broader community services and providers that is available on-line, 24/7 at www.mhaw.org --- (Click on the "I Need Help" button on any page). You can also call our Help Line at (631) 226-3900 during regular business hours to speak with our trained and supportive staff that can help connect you to services and resources.

This Directory would not be able to be printed and produced for Suffolk County citizens without the support of the Suffolk County Division of Community Mental Hygiene Services (under the Department of Health Services) and the New York State Office of Mental Health.

Should you have any questions, please feel free to contact us.

Michael Stoltz, LCSW

NYS OMH LICENSED PROGRAMS

INPATIENT SERVICES

Hospitalization may be needed to allow for a period during which the individual can be closely monitored to provide accurate diagnosis, to help adjust or stabilize medications, or during an acute episode where a person's mental illness temporarily worsens.

There are times when a person becomes so ill that they are at risk of hurting themselves or others and hospitalization becomes necessary even though the individual does not wish to enter a hospital. While seeking help voluntarily is always preferable, if that is at all possible, the decision to hospitalize involuntarily can be more caring than it seems if that is the only way your family member or friend can get the care they need, especially if there is a risk of suicide or harm to others.

Article 9 of the Mental Hygiene Law (1978) discusses hospitalization persons with a mental illness. Under the law there are three major classifications of admission.

- 1) Voluntary Admission - Any person 18 years of age or over in need of care or treatment may voluntarily sign himself/herself into a hospital if the admitting physician agrees that hospitalization is required.
- 2) Involuntary Admission - Any person 18 years of age or over may be admitted involuntarily upon the certification of two examining physicians or by a physician serving as a commissioner's designee with the concurrence of the hospital staff physician.
- 3) Emergency Admission (9.39) - Any psychiatric hospital or general hospital with a psychiatric unit which has facilities for emergency admission and is certified by the State Office of Mental Health for this purpose may admit a patient for immediate observation, care and treatment if the person's behavior is likely to result in serious harm to oneself or others.

PATIENT'S RIGHTS

The rights of persons being treated for psychiatric illness or disability are fully protected under the law. No person, solely by reason of receiving service in a psychiatric ward shall be deprived of any civil right for which he or she is otherwise qualified and eligible. These rights include personal rights, the right to quality care, and the right to object to treatment. Upon admission, each patient may contact a Mental Hygiene Legal Services attorney. The MHLS is an arm of the NYS Superior Court (Article 33 of the New York State Mental Hygiene Law - 1978).

PSYCHIATRIC HOSPITALS

Groups for recovery

ASSERTIVE COMMUNITY TREATMENT (ACT)

A team of professionals assigned to treat, monitor and ensure outpatient continuity of care for a select group of individuals diagnosed with a severe mental illness and whose needs have not been met by more traditional mental health services. ACT clients are those individuals who are generally high users of services including frequent acute psychiatric hospitalizations, emergency and/or crisis services and criminal justice involvement. The target population is those whose diagnosable mental illness significantly impairs his/her ability to function in the community without supports.

All referrals for ACT Team services must be made through the Adult SPOA Unit.
See page 25-26 for contact information

ASSISTED OUTPATIENT TREATMENT (AOT)

As per Section 9.60 of Mental Hygiene Law (a/k/a “Kendra’s Law”), AOT “provides for court-ordered outpatient treatment for certain people with diagnoses of mental illnesses who, in view of their treatment history and present circumstances, are unlikely to survive safety in the community without supervision.” A person may be ordered to obtain Assisted Outpatient Treatment (AOT) if the court finds that he or she is:

- At least 18 years of age and suffers from mental illness; and
- Is unlikely to survive in the community without supervision, based on a clinical determination; and
- Has history of non-compliance with treatment for mental illness which has led to either 2 hospitalizations from mental illness in the preceding 3 years, or resulted in at least 1 act of violence toward self or others or threats of serious physical harm to self or others within the preceding 4 years; and
- It is unlikely to accept the treatment recommended in the treatment plan; and
- Is in need of AOT to avoid a relapse or deterioration that would likely result in serious harm to self or others; and
- Will likely benefit from AOT.

The AOT Order includes a comprehensive Treatment Plan which includes outpatient program attendance and medication management in addition to monitoring and supervision by the Suffolk County Division of Community Mental Hygiene Services AOT Unit.

Client’s referred and eligible for AOT will receive Care Coordination services with Care Coordination Agencies, Suffolk County Management (ICM) or Assertive Community Treatment (ACT) services.

All referrals for Care Coordination, ACT or AOT must be on the Adult SPOA application which can be found at: www.suffolkcountyny.gov/departments/healthservices/mentalhygiene

PERSONALIZED RECOVERY ORIENTED SERVICES - PROS

PROS is a comprehensive recovery program for individuals diagnosed with severe and persistent mental illness. The goal of the program is to integrate treatment, support and rehabilitation in order to promote an individual's goals, abilities interests so that individuals will be prepared to live independently in the community. Services include vocational support. PROS agencies listed below have on-site clinical services.

OUTPATIENT PROGRAMS-CHILDREN

COMMUNITY- BASED SERVICES

Children And Parents Together (CAPT)

Advocacy program serving parents who have a mental illness and their pre-school children who are at risk of developing an emotional disturbance. CAPT provides a therapeutic nursery, social and recreational programs for the children and parents, case management and crisis intervention.

FSL - CAPT	1444 Fifth Avenue Bayshore NY 11706	631 647-3120
------------	--	--------------

Family Connect

Child and Family Support program designed to provide short-term crisis intervention, respite linkages, support, information, referral and advocacy to children and youth with or at risk of developing serious emotional and behavioral challenges and their families. Family Connect program, seeks to bridge the gap between families in need and community resources. Mobile Crisis and ER/CPEP referrals are not appropriate and should continue to be referred to LINK.

FSL Family Connect	1444 Fifth Avenue Bayshore NY 11706	631 647-3100 x6200
--------------------	--	--------------------

Family Peer Support Services

Family Peer Support Service (FPSS) programs enhance the capacity of families to care for their at-risk child, reducing the risk of hospitalization. The goal is to maintain the child in the home by providing a variety of supports and services to the family for the benefit of the child.

Family & Children's Assoc.	Family Center Suffolk 4400 Veteran's Highway Suite 202 Holbrook, NY	631-389-4693

WellLife Network Family Peer Support Program	3600 Route 112, Coram, NY 11727	631 920-8302

Respite Programs

Respite programs provide temporary care to a seriously emotionally disturbed child or adolescent while providing relief to the family. Services may include individual respite, respite groups, community-based respite and therapeutic recreational programs. Respite care may be provided both in-home and out-of-home on an emergency or planned basis.

FSL RECESS Program	1444 Fifth Avenue Bayshore NY 11706 Also Bellport & Riverhead locations	631 650-0104
WellLife Network Respite	3600 Route 112, Coram, NY 11727	631 920-8302

WellLife Network Home Based Crisis Intervention (HBCI)(631) 920-8302
Children ages 5-17 in crisis- 4-6 week of in-home services

CHILDREN'S SINGLE POINT OF ACCESS (C-SPOA)

The Children's Single Point of Access system began in 2001 to simplify and coordinate the process of linking children with serious emotional disturbance and their families to the services that can assist in meeting their needs. The goal of SPOA is to identify children at highest risk of placement in out-of-home settings; develop appropriate strategies to manage those children in their home communities; and monitor and track progress through system. The Children's SPOA is characterized by a multi-disciplinary representation of agencies. Referrals may be made to SPOA for children, age five through 18 years, with a major psychiatric diagnosis who meet the NYS OMH criteria for Serious Emotional Disturbance (SED).

Suffolk County Children's SPOA Referral and Information Line(631) 853-8513

C-SPOA IN-HOME PROGRAMS

Supportive Case Management (SCM), Intensive Case Management (ICM) & Non-Medicaid Care Coordination/Intensive Case Management (NMCC/ICM)

All develop service plans based on the specific needs and desires of the child and the family. Programs provide care coordination services, including service linkage, coordination and monitoring and crisis intervention to maximize each youth's potential for growth and emotional stability within their natural support system and maintain the youth in their home and community. The ICM and NMCC/ICM sees the child and/or family a minimum of four visits per month, while the SCM maintains a minimum of two visits per month.

SPOA COMMUNITY-BASED RESIDENTIAL SERVICES

Teaching Family Homes (TFH)

TFH provides a family-like residential environment for children. A specially trained live-in couple teaches the skills necessary for the children to live successfully in a family, attend school, and live productively in the community. With continuous training and supervision, a therapeutic environment is maintained which allows for treatment and “family style” living. Emphasizes working closely with the child’s family to facilitate family reunification upon discharge.

Catholic Charities TFH.....(516) 634-0014 x129
333 North Main Street, Freeport, NY

Community Residences (CR)

Community Residences are residential programs for six to eight children that include structured daily living activities, development of problem-solving skills, a behavior management system and caring adult relationships. Program staffing provides for 24-hour awake supervision.

Family and Children Association Lakeview House..... (516) 678-5991 x1316

HEALTH HOMES AND CARE COORDINATION

HEALTH HOMES

A Health Home is a care management service model whereby all of an individual's caregivers communicate with one another so that all of a patient's needs are addressed in a comprehensive manner. This is done primarily through a "care manager" who oversees and provides access to all of the services an individual needs to assure that they receive everything necessary to stay healthy, out of the emergency room and out of the hospital. Health records are shared (either electronically or paper) among providers so that services are not duplicated or neglected. The health home services are provided through a network of organizations – providers, health plans and community-based organizations. When all the services are considered collectively they become a virtual "Health Home."

The following are the designated Suffolk Health Homes:

Hudson River Health Care, Inc

Gina LaSerra / Samantha Ozegovich 1-888-980-8410 press 3 for Suffolk

Assisted Outpatient Treatment (631) 853-6205 Fax(631) 853-6451

North County Complex
P.O. Box 6100
Hauppauge, NY 11788

CARE COORDINATION

Adult SPOA (Single Point of Access) coordinates referrals for care coordination to Health Home Care Management agencies and ACT Team providers. An individual receiving care coordination services can expect assistance with accessing services that support an improved quality of life. Care coordination can involve assistance with housing, outpatient treatment, vocational services, day programs and disability benefits. Additionally, the Adult SPOA unit provides referrals for care coordination services for those individuals without Medicaid coverage, and is available to offer assistance as you navigate the mental health system. For assistance or more information on how to apply please call 853-6204.

Clients with Medicaid may also make a direct referral to a Health Home for care coordination services. All requests for clients without Medicaid or for ACT level services are made through the Adult SPOA unit.

Based on an individual's location and needs, referrals are made to the following agencies:

Adult SPOA Unit(631) 853-6204 Fax: (631) 853-6451
North County Complex, Bldg C-928
725 Veteran's Memorial Highway, Hauppauge, NY 11788

NYS OMH-LICENSED AND SUPPORTED HOUSING

BACK IN THE COMMUNITY - HOUSING

Application for all mental health housing in Suffolk County must be submitted to the Single Point of Access (SPA). The SPA may be reached at (631) 231-3562.

<http://www.suffolkcountyny.gov/departments/healthservices/mentalhygiene.aspx#SPA>

Apartment Treatment Program- Residents live with one or two other individuals in a community setting where they are visited by staff 3-4 times per week.

Community Residences- Licensed, staffed, rehabilitative programs designed to assist individuals with learning or relearning the skills necessary to live as independently as possible in the community. There are varying levels of care based on the individuals' needs. Levels of care range from 24 hour, 7-day staff supervision to 1 or 2 staff visits per week. Case managers, treatment providers, family or consumers can make the application, but each agency has its own requirements for documentation. Fees are regulated and can be managed by public benefits or private pay.

Supported Housing- A number of agencies offer only this form of housing. It is virtually independent living. Supported Housing is a non-licensed, non-staffed permanent housing option. For a percentage of the person's income, he/she is provided with an apartment (may be single or shared) and all necessary furnishing. Utilities are usually included. Case Management is provided.

Supportive Housing- In supportive housing, housing and support are linked. This means that staff members usually work in the residences to provide support. Supportive housing is a cost-effective combination of affordable housing with services that helps people live more stable, productive lives. Supportive housing works well for people who face the most complex challenges: individuals and families who are not only homeless, but who also have very low incomes and serious, persistent issues that may include substance use, mental illness, and HIV/AIDS.

Community Residence, Single Room Occupancy (CR-SRO) - A type of transitional living. These are individual apartments that have their own efficiency kitchens and bathroom facilities, in supervised buildings with on-site case management.

State Operated Community Residences - SOCR is a 24-hour, 7-day a week staffed program for individuals with a greater need for structure and supervision. Application may only be made through the discharge-planning unit of the State Psychiatric Facility.

Pilgrim Psychiatric Center - Discharge Planning Unit(631) 544-7040

PERINATAL MOOD & ANXIETY DISORDERS

Women of every culture, age, income level and race can develop perinatal mood and anxiety disorders. Symptoms can appear any time during pregnancy and the first 12 months after childbirth. There are effective and well-researched treatment options to help you recover. Although the term “postpartum depression” is most often used, there are actually several forms of illness that women may experience, including pregnancy (also called antepartum) or Postpartum Depression, Pregnancy or Postpartum Anxiety Pregnancy or Postpartum Obsessive-Compulsive Disorder, Postpartum Post-Traumatic Stress Disorder and Postpartum Psychosis.

DROP-IN CENTERS

The objective of a Drop-In Center program is to identify and engage persons who may choose not to participate in more structured programs or who might not otherwise avail themselves of mental health services, and to provide services and supports in a manner which these individuals would accept. These programs are low demand, flexible and relatively unstructured, and responsive to individual need and circumstances.

FREE/LOW-COST MEDICATION

Bureau of Prescription Health.....(573) 996-7300

The Medicine Program assists patients who cannot afford to pay for prescription medication. This program is used when a consumer is unable to pay for medications, pending Medicaid approval.

There are also some pharmaceutical companies that offer free medications to low-income families. They require a doctor's consent and proof of your financial status. Depending on what your insurance covers, you may be able to apply. A few companies allow family incomes as high as \$40,000 annually (offset by expenses).

For a listing of current pharmaceutical companies and the medications they offer visit www.nami.org

ABOUT ASSOCIATION FOR MENTAL HEALTH AND WELLNESS

The Association for Mental Health and Wellness was formed in 2014 upon the merger of two Suffolk County mental health organizations, the Mental Health Association in Suffolk and Clubhouse of Suffolk, along with Suffolk County United Veterans. While our individual histories date back over 25 years, we are now looking towards our future. By sharing and strengthening resources that help those facing psychiatric disabilities as well as those experiencing mental health issues for the first time, plus an enhanced focus on serving our Veterans, we will be able to better serve all of Suffolk County's residents.

Community Education & Support	Brief Description
Mental Health HelpLine (631-226-3900)	Information and Referral services to mental health services within Suffolk. Information is provided via phone 5 days/week. Resources can be accessed 24/7 via our agency website. We will shortly be adding a link for mental health self-assessment via Mental Health America.
Community MH Education (Speakers Bureau, Anti-stigma activities)	MHAW provides speakers on a range of mental health topics for schools, community groups, and agencies. Under this program heading, we also facilitate Long Island activities to recognize National Mental Illness Awareness Week (October) as well as Mental Health Month (May). We assist the LI Suicide Prevention Coalition with its annual conference for service providers.
Peer Training (Careers in Wellness & Recovery)	This training is comprised of a 16 week (2 days/wk) class for people with lived experiences with psychiatric disabilities who seek to work or volunteer in agencies who provide recovery-oriented services. Through grants, this program's curriculum was enhanced in order to align with a new NYS peer-credential through the Academy of Peer Services. We are currently developing a collaboration with Community Access's Howie The Harp Peer Training Program of NY City agency in order to build post-graduate internship and employment opportunities.
Professional Workforce training	We currently have a County contract to provide 3 mini-conferences for professionals who work with children. However, our new status as a Department of Education Social Work Continuing Education provider is a building block for us to develop and offer more professional training for all providers on a fee-for-service basis.
Peer Networking	This is a support and networking service for peers (people with lived experience) who are currently working in community mental health positions.
Self-Help Groups	We offer 7-9 free community support groups such as: Family support groups (2), mood disorder support groups (2), ; and one social support group for people in recovery. We would like to expand this as well including the development of on-line, video-streamed peer support.
Peer Support Line	One evening and one weekend day, trained peers provide telephone support – this includes planned and requested outgoing calls and availability for incoming calls.
Hurricane Sandy Trauma & training services to Child Care centers	A short-term grant from the NYS Office of Children and Family Services, this program is a partnership with Child Care Council in Suffolk that reaches out to train child care staff, particularly those in areas impacted by the Hurricane, to identify and intervene with children with trauma reactions.
Food Pantries	We offer our local communities 3 food pantries at our program sites in Ronkonkoma, Riverhead, and Yaphank – the latter targeting Veterans and their families. All are overseen by LI CARES and are assisted tremendously by community donations.

Psychiatric Rehabilitation and Support	
Pollack Center for Wellness & Recovery (PROS with Clinic)	This NYSOMH-licensed program serves approximately 260 people with psychiatric disabilities at any one time (about 400/yr) to assist them to attain desired goals and roles with respect to employment, education, social and family relationships, health, and leisure. Services are classroom-based and every participant (called members) has a staff advisor who assists them in a recovery-driven, trauma-informed manner. Clinic treatment services are available and used by about ½ of the participants.
Synergy Center for Wellness and Recovery (PROS with clinic)	Same program as above but based in Riverhead. Serves about 120 people at any one time and about 160 per year.
Chemical Free garden (Ronkonkoma)	This project is unfunded but Ronkonkoma members and volunteers take care of this garden that provides vegetables and herbs for our food pantry and for meals at the Pollack Center.
East End Recovery Center (new)	Awarded in October, 2015, this “Center without Walls” is run by people with lived experiences and engage people affected by mental health challenges who are not served by more formal programs to consider personal passions, wellness, and direction.
OMH Supported Housing	23 slots in 10 units owned or lease by MHAW in nearby communities and supported by a full-time case manager.

Care Coordination and Service Engagement	
Health Home Care Management/Outreach	This has grown to become our largest program, currently serving over 1000 active clients while marketing HHCM services to between 1000 and 1500 Medicaid recipients every month. This program has evolved from NYS’s Medicaid Reform Task Force commitment to provide better coordinated care to its Medicaid population. Nearly 30 staff are dedicated to serving eligible people, mostly in eastern Suffolk but rapidly growing our footprint to include more of the County.
State-Aid Mental Health Care Management	This program operates under a NYS- County contract and extends CM services to people without Medicaid who have serious mental illness.
Community Health Activation Project (Began 8/2015)	Funded through the Stony Brook Delivery System reform Incentive Program (DSRIP), we have a team of people who reach out to uninsured people – and soon Low- and non-utilizing Medicaid recipients – to engage them toward better health through health surveys and health coaching.

Suffolk County United Veterans	
John J. Lynch Veterans Place Emergency Shelter	Twelve beds at the shelter provides up to 90 days of shelter plus a range of services geared to help homeless Vets connect with resources of permanent housing, mental and physical health services, and financial assistance including DSS and VA entitlement benefits. All staff are either Veterans themselves or Veteran family members.
Transitional and Permanent Housing	12 of these slots reside at the Lynch Veterans Place while other 43 are in houses in eastern Suffolk. A case manager, also a Veteran, provides assistance with health and benefits coordination as well as support and guidance toward employment and education goals.
Supportive Services for Veterans and Families (SSVF)	In collaboration with the Economic Opportunity Council of Suffolk, four staff reach out to locate and engage Veterans and families who are at risk of homelessness.
Pfc. Joseph Dwyer Veterans Peer Support Program	This program is funded by an annual State grant to connect with veterans who have experienced post-service transition issues, including mental health and substance use problems. Services are provided by trained Veteran peers and delivered in individual and group format. This project has a strong collaborative relationship with the Suffolk County Veterans Services Agency.

Advocacy

As a chapter of the Mental Health Association of New York State and Mental Health America, as well as organizational member of the New York Association of Psychiatric rehabilitation Services (NYAPRS), our agency leadership has played key roles in State, National, and local advocacy on a range of issues. This includes:

- New York State Regional Center of Excellence – with the NYSOMH and Pilgrim State Hospital
- Delivery System reform Incentive Payment (DSRIP) – initiatives with Stony Brook University Medicine and Nassau University Hospital
- Suffolk County Welfare to Work Commission
- Suffolk County Veterans Suicide Prevention task Force
- Long Island Suicide Prevention Coalition
- Suffolk County Mental Health Sub-committee
- LI Continuum of Care – Committee that administers HUD programs and initiatives to combat homelessness.
- National Coalition on Homeless Veterans

For further information please call, email or write:

The Association for Mental Health and Wellness
939 Johnson Ave Ronkonkoma, NY 11779
