# SUMMER CAMP Experiences

**GIVE YOUR CHILD A SUMMER OF DISCOVERY:  
REGISTER FOR OUR SUMMER CAMPS NOW!**

Four action-packed weeks of hands-on projects, experiments, and STEM adventures designed to inspire curiosity, creativity, and problem-solving! Expert educators guide campers through engaging challenges that make learning fun and meaningful, giving kids the chance to explore, invent, and discover in a safe, supportive environment. Spots fill fast—reserve your week today!

## Camp Information:

| Week          | Theme                                       | Grades            | Why Kids Love It   |
|---------------|---|-------------------|--|
| July<br>13-17 | <b>MedTech Explorers</b>                    | Entering<br>4 – 7 | Explore the human body, experiment with medical tools, and see how doctors and engineers solve real-world health challenges! |
| July<br>20-24 | <b>SnappyXO Robotics Adventure</b>          | Entering<br>1 – 5 | Design, build, and test your own robots while discovering how engineers solve problems and bring ideas to life!              |
| July<br>27-31 | <b>Logic &amp; Play: STEM Through Games</b> | Entering<br>1 – 5 | Tackle fun puzzles and hands-on challenges that help you think like an engineer or mathematician in exciting, playful ways!  |
| Aug<br>24-28  | <b>Curiosity Camp: Build, Test, Invent!</b> | Entering<br>1 – 5 | Explore STEM through experiments and challenges that let you invent, test, and discover every day!                           |
